

D+CONNECT

YOUR SYSTEMS ARE JUST A CLICK AWAY

Compact and quick and easy to install, the D.Connect box is suitable for any system and does not require any infrastructures. All you need is an internet connection. You can connect up to 8 products in a few minutes and then monitor them, without any changing settings.

A dramatic, low-light photograph of a man with long, wavy hair, wearing a green flight suit and goggles, looking out from the cockpit of an aircraft. The scene is set at night, with city lights visible through the window.

D+CONNECT
READY
IN A
HEARTBEAT

YOUR SYSTEMS ARE JUST A CLICK AWAY**THE SERVICE THAT MAKES LIFE EASIER**

D.Connect makes monitoring DAB products easy and intuitive. All adjustments are also possible remotely. For total control with no surprises.

IMMEDIATELY READY TO USE

D.Connect does not require specific infrastructures. The installation only requires an internet connection and a smartphone. Just follow the few steps of the connection wizard to connect your pumps.

**TECHNOLOGY FOR EVERYONE**

Based on state-of-the-art technology, the D.Connect system offers many advantages than typical BMS systems.

UNRIVALLED ADVANTAGES**D.Connect****TAILOR DESIGN**

Developed for both residential and commercial building service application.

SOFTWARE & HARDWARE

You do not need to buy any expensive software, nor do you need to pay for updates or for dedicated work stations.

USE

No fixed work station is required as the D.Connect is all about portability, the only thing you need is a internet connection.

VALUE

It lowers the overhead costs, increasing the value of your building.

D+CONNECT BOX

The compact electronic device can be used to easily connect to D.Connect a wide range of DAB products, both new and already installed. The only thing required is a wired connection on site and you're then set to go!

APP & DESK

Download the App from the App Store or Google Play, or visit the site internetofpumps.com, and you're ready to view the connected installations on the network and check their individual settings. The user interface couldn't be clearer and more functional, it brings all the data you need to your fingertips.

PACK CONTENT:

- D.Connect Box.
- Wall-mounted power supply unit, plugin socket and ferrite core.
- Screws and plugs for wall-mounted installation.
- DIN rail installation bracket.
- Electric connectors for Modbus, Canbus, I/O, Relay connections.
- Instruction manual.

DAB[®]
WATER • TECHNOLOGY

SAFETY

Like any other items in our life connected to the Internet network, also water pumps are at risk of cyber-attacks.

For years, DAB has been developing a Cybersecurity culture to guarantee safe and protected solutions for our customers.

D.Connect hardware and software components have been tested following the most stringent international protocols.

At DAB, the attention for the customer is also demonstrated by the preventive actions and the informed choices implemented in relation to security, with the object of protecting our most advanced technological solutions.

Appropriate choices during the design stage, keeping a high attention level and continuously releasing updates, is DAB way of protecting the customer.

D.Connect REQUIREMENTS

SMARTPHONE OR TABLET

- Android 4.4.2 "KitKat" or higher.
- iOS 9 or higher.
- Access to the Internet.

PC

- Web Browser supporting Java script (e.g. Internet Explorer version 8.0 or higher, Firefox version 7.0 or higher, Google Chrome).
- Internet connection.

NETWORK REQUIREMENTS

- Permanent active Internet connection.
- Wi-Fi and/or LAN modem/router; active DHCP service.
- In case of Wi-Fi, good quality Wi-Fi signal in the D.Connect Box installation area.
In case of weak signal, we recommended the use of a Wi-Fi signal repeater.

A SINGLE INTERFACE FOR EVERY APPLICATION

The D.Connect system can be used in all the main fields of application: from pressurisation systems to circulation systems, from waste water recovery installations to swimming pool filtering systems.

It is a multi-channel service of high added value that can be used with any system, irrespective of its nature and size and in the same environment and with the same instruments.

Being modular, D.Connect can manage up to 8 different installations in a highly simple and integrated manner.

SMART BUILDING MANAGEMENT

D.Connect permits easier, controlled and more rational management of the system, lowering the overhead costs and increasing the absolute value of the building in terms of efficiency and overall comfort.
